

Graph absorbency characteristics as a function of SM 1.0 motor speed

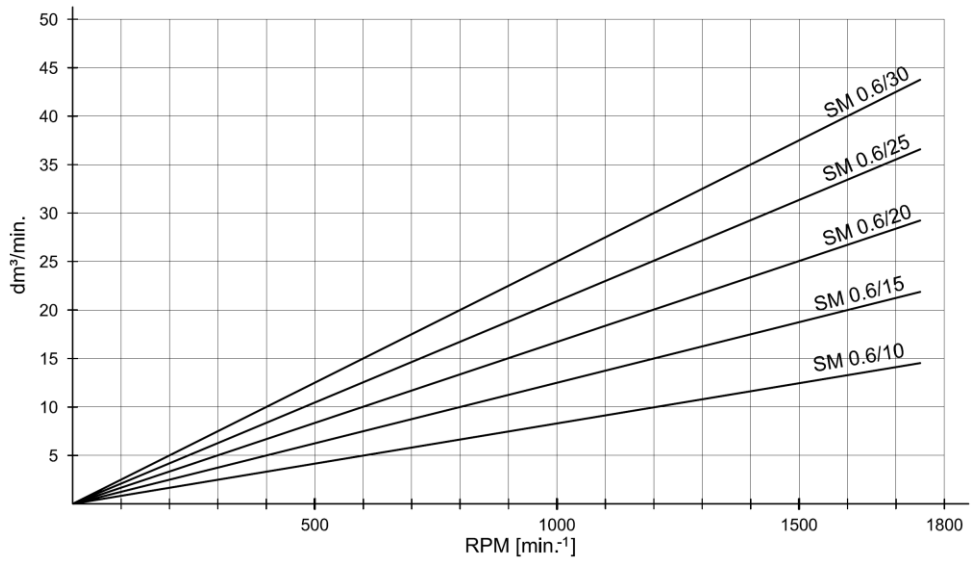

Graph of torque characteristics as a function of the pressure drop at the SM 1.0 motor connections

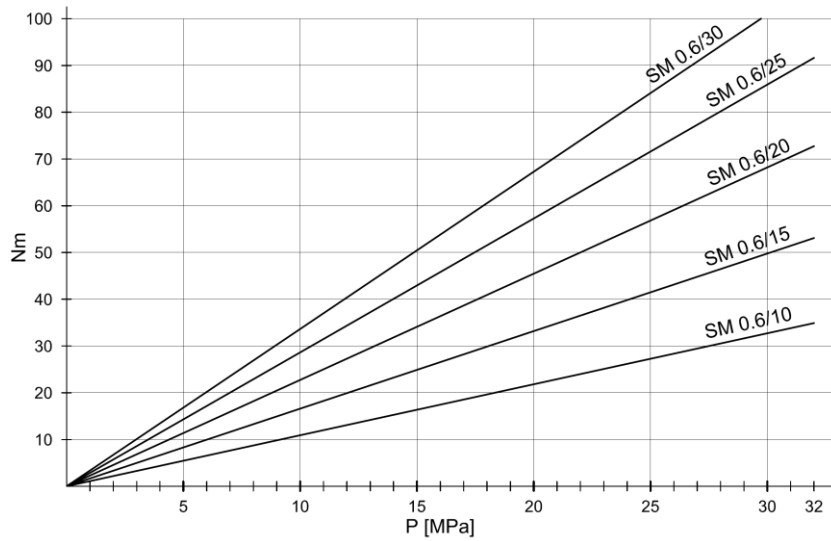

Characteristics of the nominal torque (pressure drop on the motor 22 MPa) on the shaft as a function of SM 1.0 motor speed

Graph absorbency characteristics as a function of SM0.6 motor speed

Graph of torque characteristics as a function of the pressure drop at the SM 0.6 motor connections

Characteristics of the nominal torque (pressure drop on the motor 22 MPa) on the shaft as a function of SM 0.6 motor speed
